**Introduction**

# 1 Introduction

In this chapter you will learn how to Sign in, Sign Out and how to retrieve your account in case you forget your password.

## 1.1 Welcome

Welcome to the Zoom online Help.

This is an effective tool for video conferencing. We have put together a useful Guide that will get you the most out of Zoom. Various functions are explained to make you more familiar with the app. Common troubleshooting procedures are also explained. Please ensure your computer has a camera if it is not a laptop.

If you have any questions feel free to contact us through our mail <email.com>. Our support telephone lines are also available from <timings>. Helpline number is <Phn no>. We will ensure that you get a response within 24 hours.

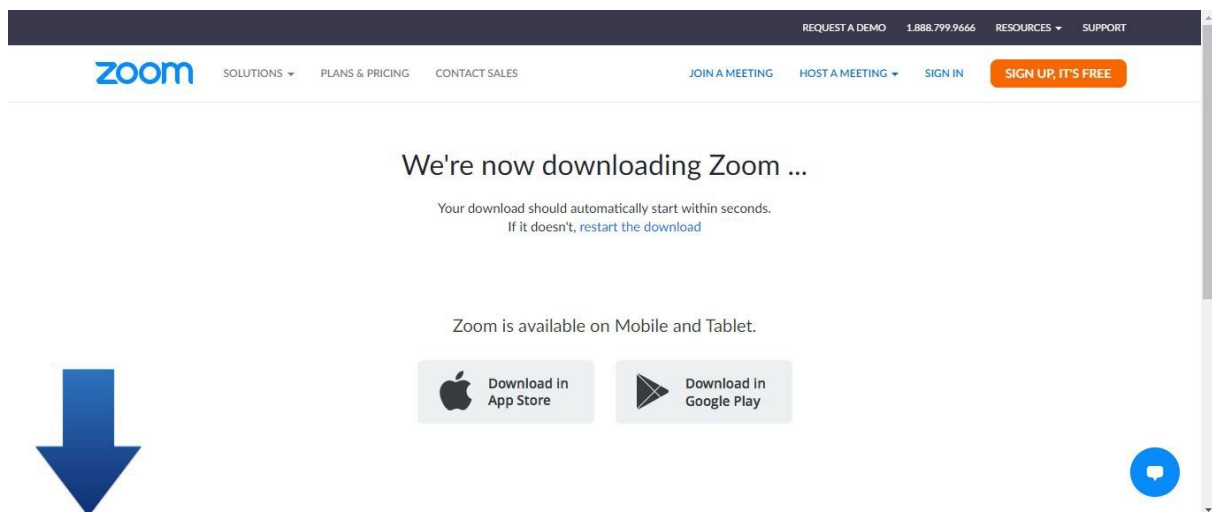

Your feedback, reviews and suggestions are also welcome.

### 1.1.1 Installing Zoom

This topic helps you to install Zoom on your computer. You can also join a Zoom session from the website.

#### To Install Zoom

1. Open your internet browser (**Google Chrome, Firefox**).
2. Go to <https://zoom.us/support/download> . The zoom installer begins to download automatically.

The screenshot shows the Zoom website's download page. At the top, there is a dark navigation bar with links for 'REQUEST A DEMO', '1.888.799.9666', 'RESOURCES', and 'SUPPORT'. Below this is a white header with the Zoom logo and navigation links: 'SOLUTIONS', 'PLANS & PRICING', 'CONTACT SALES', 'JOIN A MEETING', 'HOST A MEETING', 'SIGN IN', and a prominent orange 'SIGN UP, IT'S FREE' button. The main content area features the heading 'We're now downloading Zoom ...' followed by the text 'Your download should automatically start within seconds. If it doesn't, restart the download'. Below this, it states 'Zoom is available on Mobile and Tablet.' and provides two buttons: 'Download in App Store' (with the Apple logo) and 'Download in Google Play' (with the Google Play logo). A large blue arrow points downwards on the left side of the page. A small blue chat icon is visible in the bottom right corner.

3. Locate the downloaded file and click the **ZoomInstaller.exe** file to install Zoom. The program begins to install.

The **Do you want to allow this program to make changes to your device** message box is displayed.

4. Click **Yes**.
5. Click **Run**. After the installation the **Zoom** program opens.

**Note:** Zoom can also be run via the website. This is explained in the topic [Joining a meeting via the web](#)<sup>87</sup>.

## 1.1.2 Joining a meeting

There are two ways to join a zoom meeting. 1. Via the website 2. Via the Client, the Zoom software that you can download and run as a program or as an App from your computer. It is recommended that you download and run the app or the client to use Zoom to join meetings.

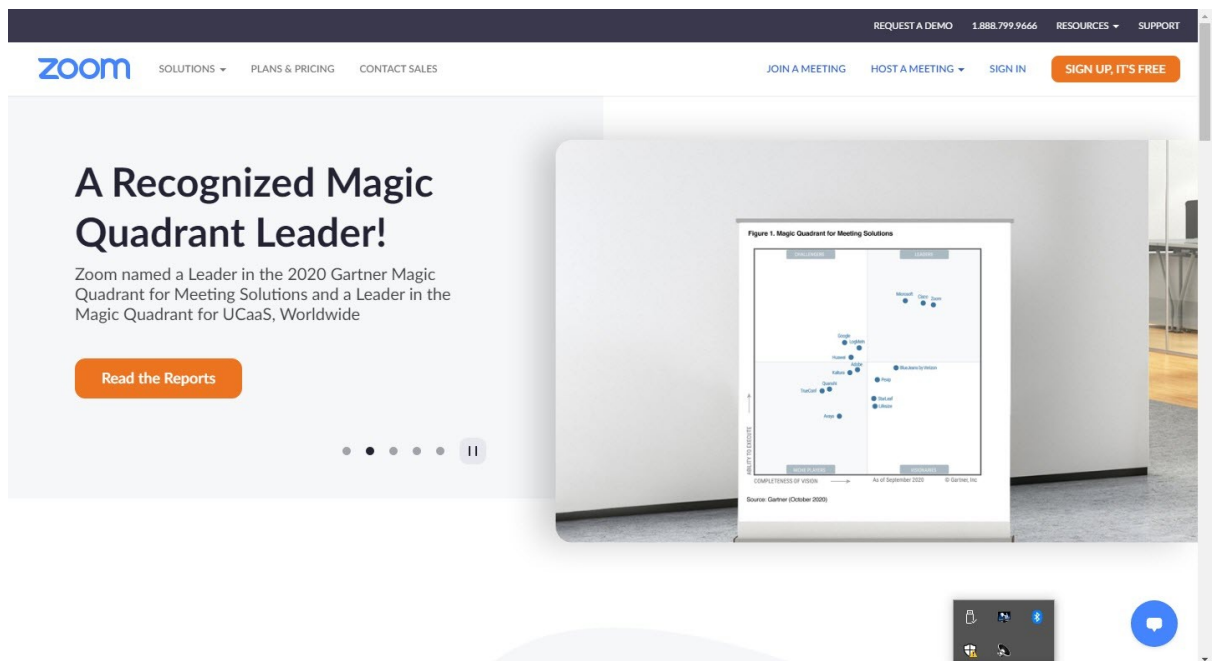

**Zoom** meeting requires a **Meeting ID** and **Password** which will be provided by the host.

### 1.1.2.1 Joining meeting via the Web

You can also join a meeting without downloading the Zoom app to your computer or to your smartphone. This topic shows you how.

#### To download zoom or join a meeting using the website

1. Open your web browser (**Chrome, Opera, Explorer, Firefox**) on your computer.
2. Go to [www.zoom.us](http://www.zoom.us) by typing the URL in the URL field and pressing **Enter**.

The screenshot shows the Zoom website homepage. The top navigation bar includes links for "REQUEST A DEMO", "1.888.799.9666", "RESOURCES", and "SUPPORT". Below this, the Zoom logo is followed by "SOLUTIONS", "PLANS & PRICING", and "CONTACT SALES". On the right side of the navigation bar, there are links for "JOIN A MEETING", "HOST A MEETING", "SIGN IN", and a prominent orange "SIGN UP, IT'S FREE" button. The main content area features a large heading "A Recognized Magic Quadrant Leader!" with a sub-heading "Zoom named a Leader in the 2020 Gartner Magic Quadrant for Meeting Solutions and a Leader in the Magic Quadrant for UCaaS, Worldwide". Below this text is an orange "Read the Reports" button and a series of five dots with a play icon. To the right, a large image shows a presentation screen displaying a Magic Quadrant chart titled "Figure 1. Magic Quadrant for Meeting Solutions". The chart plots various vendors on a grid with "COMPLETENESS OF VISION" on the x-axis and "ABILITY TO EXECUTE" on the y-axis. Zoom is positioned in the top-right quadrant, labeled "Leaders". Other vendors like Cisco, Microsoft, and Webex are also visible. At the bottom right of the page, there are icons for mobile devices and a blue chat bubble icon.

3. Click on the **JOIN A MEETING** link located on the top right of the webpage. The webpage refreshes to display the following.

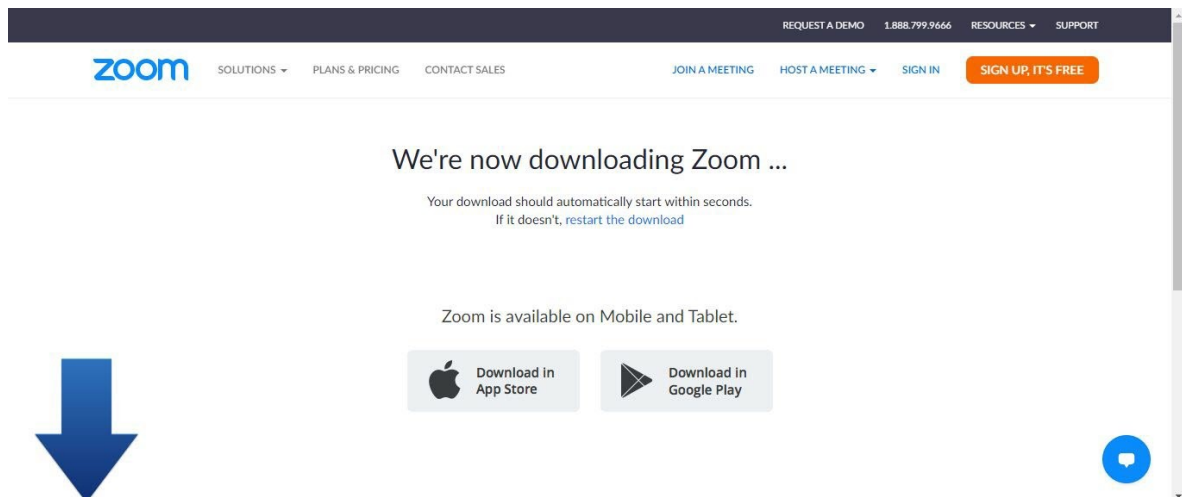

## Join a Meeting

Meeting ID or Personal Link Name

Join

[Join a meeting from an H.323/SIP room system](#)

4. Enter the meeting-id provided by your host in the **meeting-id** field.
5. Click **Join**. The webpage refreshes to display the following.

**Note:** You can either download or run the .exe file that begins to download or join the meeting online from the webpage itself. By default the .exe installer file already starts downloading. Once it completes downloading follow instructions under [Joining via the App](#)<sup>[10]</sup> to join the meeting via the app.

6. Click the **Join from your browser** link, To join the meeting online. The webpage refreshes to display the meeting-id field.

## Join a Meeting

Your Name

  
 I'm not a robot   
reCAPTCHA  
Privacy - Terms

Join

Zoom is protected by reCAPTCHA and the [Privacy Policy](#) and [Terms of Service](#) apply.

**Note:** If you don't see the **Join from your browser** link click the **launch meeting** link. This displays the **Join from your browser** link.

7. Enter your name in the **Your-Name** field.
8. Check the **I'm not a Robot** check-box.
9. Click **Join**. You are permitted into the meeting.

**Note:** If you are asked if zoom can take control of your microphone, give permission for the same.

### 1.1.2.2 Joining via the App

This topic explains how you can join a Zoom meeting via the app after the .exe has been downloaded onto your computer.

#### To join a meeting after you have the .exe file is downloaded

1. Run the file by clicking the recently executed file. This procedure is explained in the topic [Installing Zoom](#) <sup>6</sup>.
- Once installed the program opens automatically asking for the password.
2. Enter the password in the **Password** field.
  3. Click **Join** and wait for the host to admit you into the meeting.

# Part

**How to Sign in**

## 2 How to Sign in

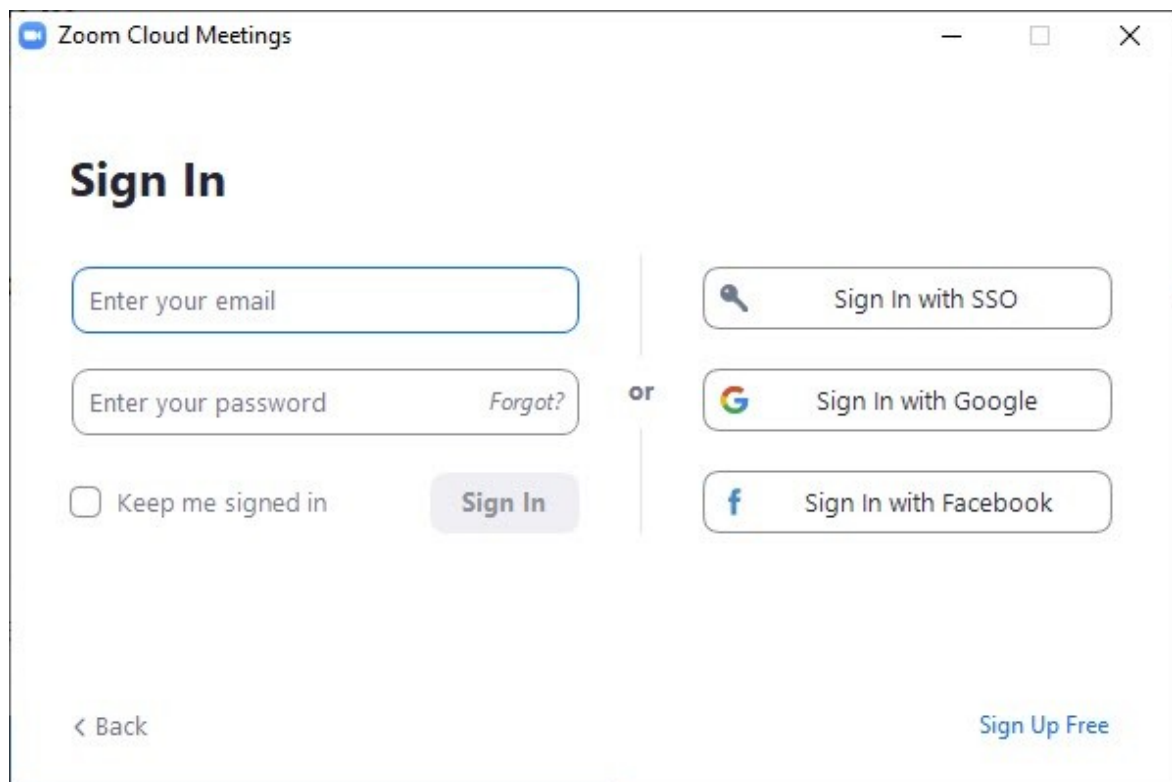

This topic explains how one can sign in to a Zoom meeting using other methods such as a Google account.

### To sign in

1. Open your Zoom app on your computer. The Zoom program opens.

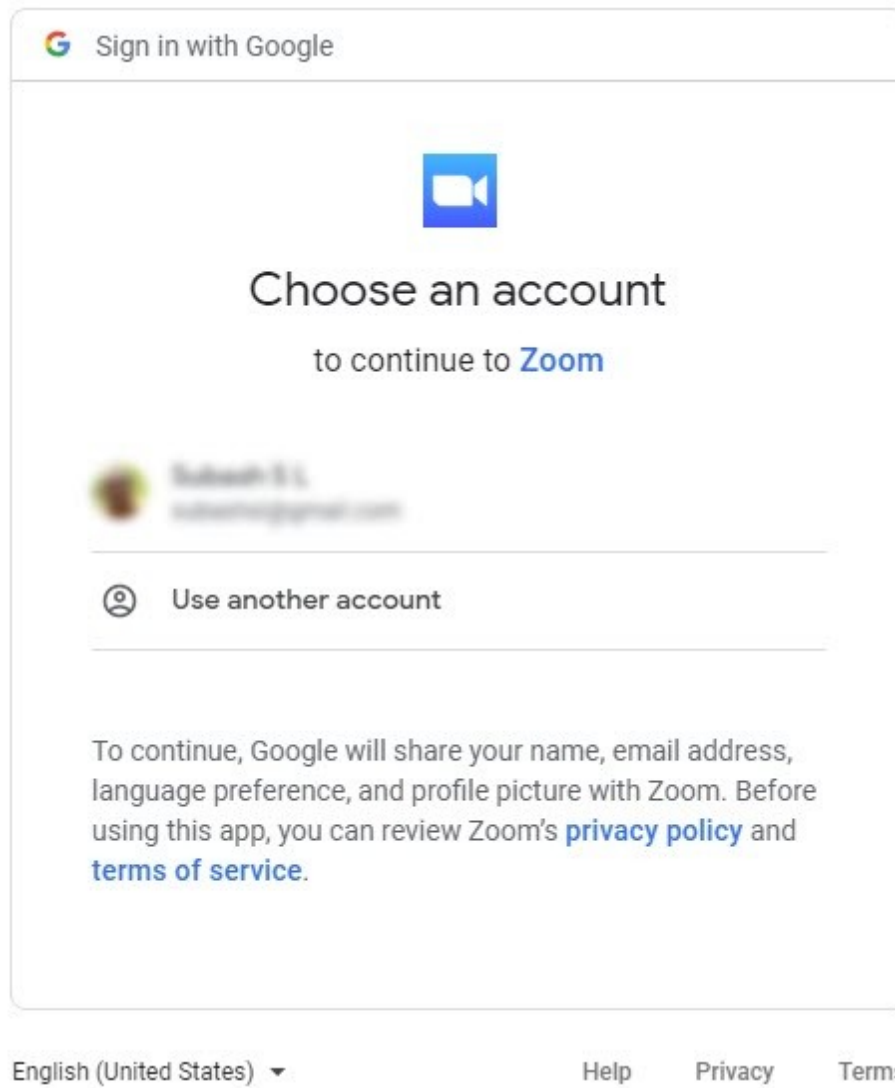

2. Click **Sign In**. The following options are displayed.

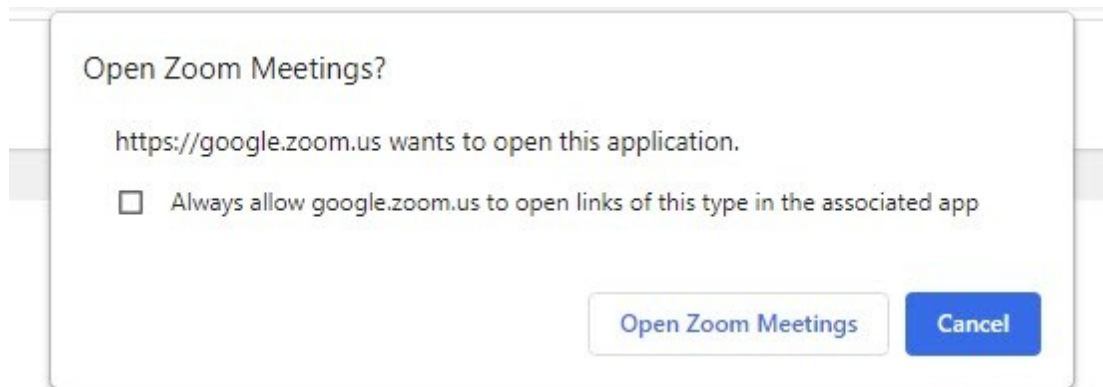

The image shows a screenshot of the Zoom Cloud Meetings sign-in interface. The window title is "Zoom Cloud Meetings". The main heading is "Sign In". On the left side, there are two input fields: "Enter your email" and "Enter your password". The password field has a "Forgot?" link next to it. Below the password field is a checkbox labeled "Keep me signed in" and a "Sign In" button. On the right side, there are three social sign-in buttons: "Sign In with SSO" (with a key icon), "Sign In with Google" (with the Google logo), and "Sign In with Facebook" (with the Facebook logo). A vertical line with the word "or" is positioned between the email/password fields and the social sign-in buttons. At the bottom left, there is a "< Back" link, and at the bottom right, there is a "Sign Up Free" link.

In our example we'll use the **Sign In with Google** option.

3. Click on **Sign In with Google**. The webpage refreshes to display the following.

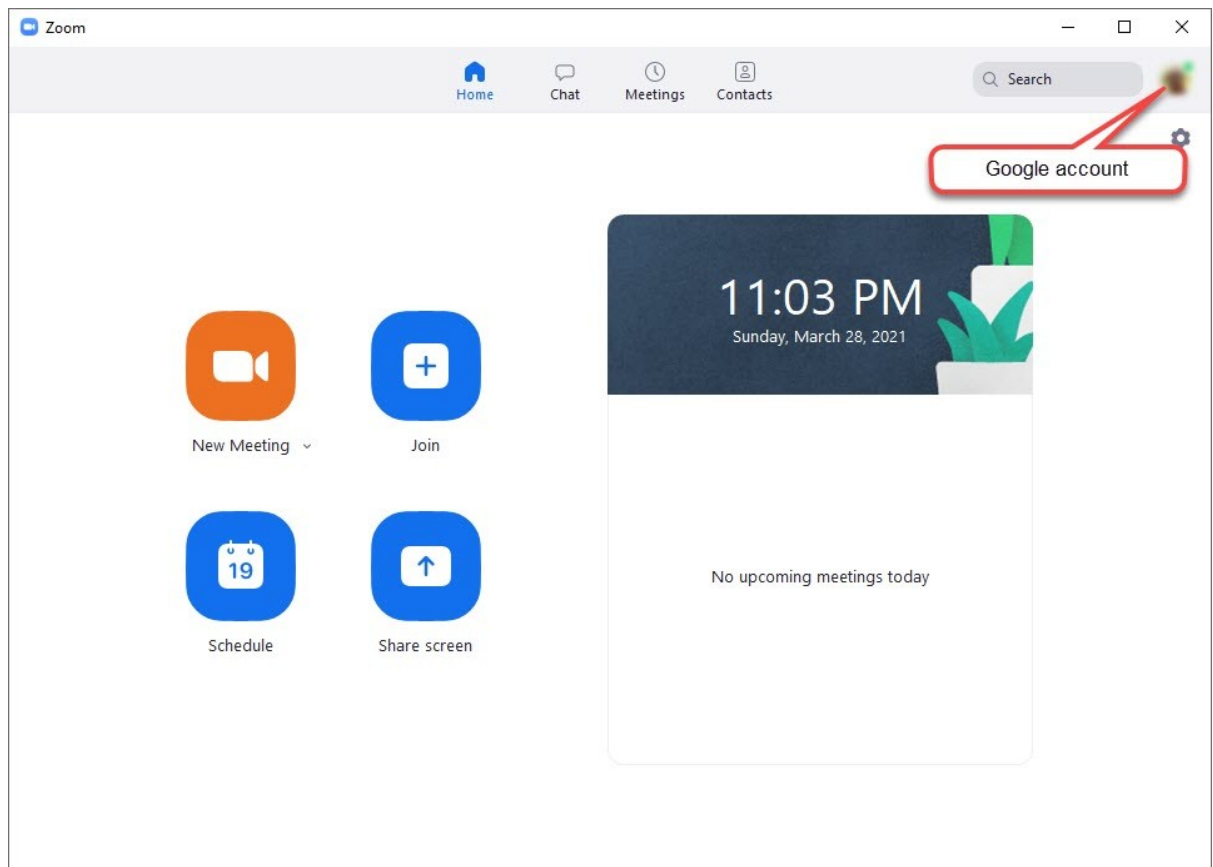

4. Select an account by clicking it. The internet browser opens asking if it can open your Zoom app on your computer.

Zoom should launch in a few seconds. If not, please click button below.

Launch Zoom

5. Click **Open Zoom Meetings**. The Zoom app opens.

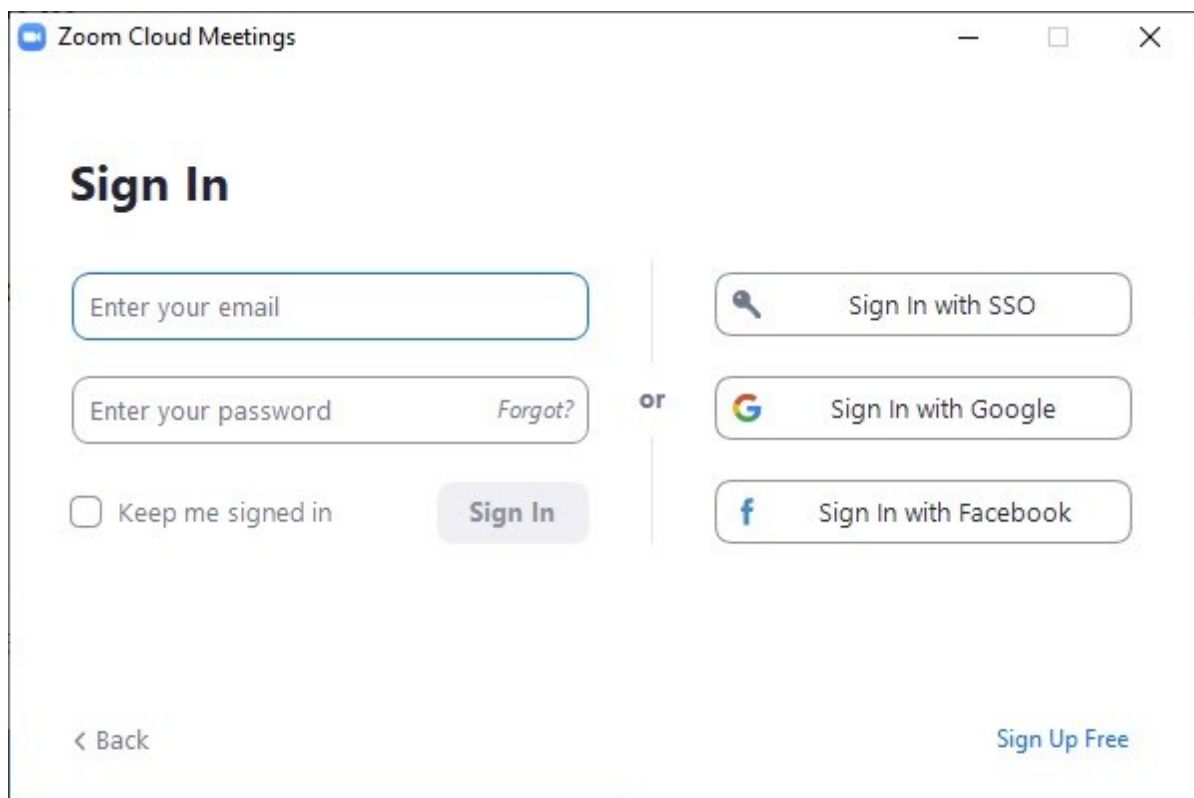

**Note:** 1. Check the **Always allow google.zoom.us to open links of this type in the associated app** to directly Sign In without seeing the message box. 2. If Audio or video does not appear in the views you need to enable them. Audio (Microphone icon) and Video icons are located at the bottom left of the Zoom window. Click them to enable them.

## 2.1 Forgot password

This topic helps you retrieve or reset your password if you have forgotten it while signing into Zoom.

### To reset your password

1. Enter your email in the **Enter your email** field on the **Sign In** page.

The screenshot shows the Zoom Cloud Meetings Sign In page. The window title is "Zoom Cloud Meetings". The page has a "Sign In" heading. On the left, there are two input fields: "Enter your email" and "Enter your password". The "Enter your password" field has a "Forgot?" link next to it. Below these fields is a checkbox labeled "Keep me signed in" and a "Sign In" button. On the right, there are three social sign-in buttons: "Sign In with SSO", "Sign In with Google", and "Sign In with Facebook". At the bottom left, there is a "< Back" link, and at the bottom right, there is a "Sign Up Free" link. The word "or" is centered between the two columns of buttons.

2. Click ***Forgot?*** on the **Enter your Password** field.
3. The Zoom password reset confirmation mail is sent to your email using which you can reset your email and Sign In again successfully.

# Part

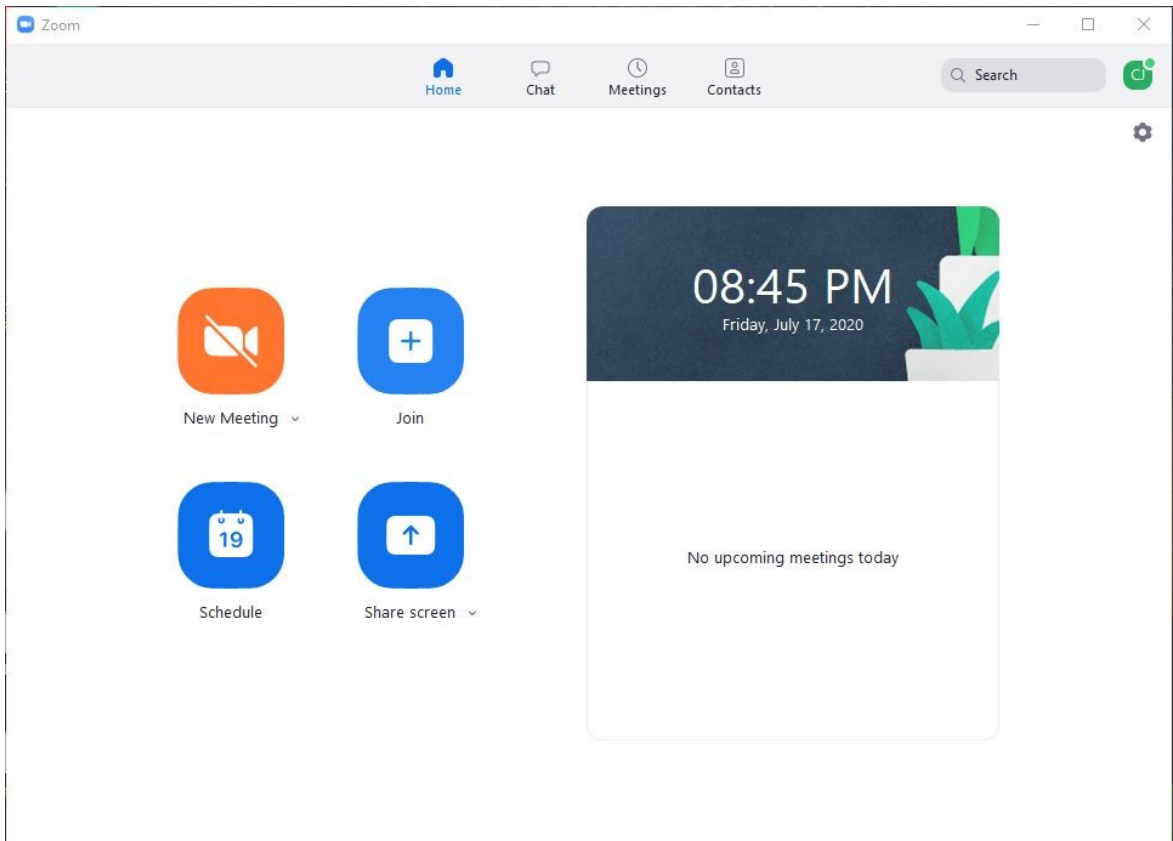

**Hosting a  
Meeting**

### 3 Hosting a Meeting

This topic explains how to host a meeting in Zoom with one or more of your attendees.

#### To host a meeting

1. Open the Zoom application on the desktop. The window opens.
2. Click the arrowhead below **New Meeting** and from the drop-down list check the **Join with Video**.

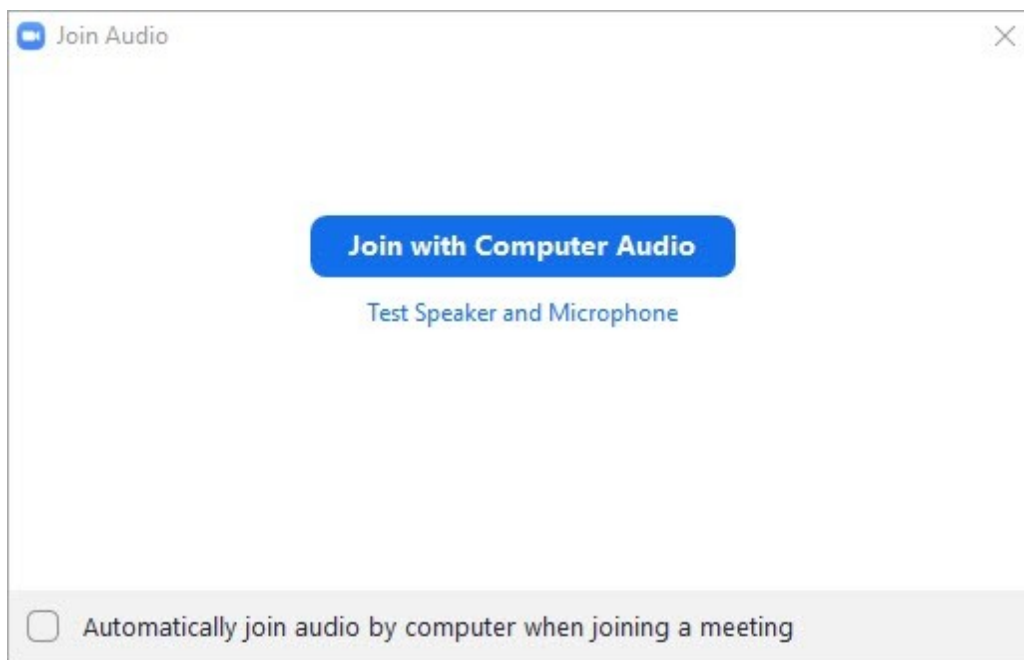

**Note:** Check the **Use My Personal Meeting ID (PMI)** option to give your participants the same id and password each time you host a meeting. The PMI is listed in the drop-down menu just below the **User My Personal Meeting ID** option.

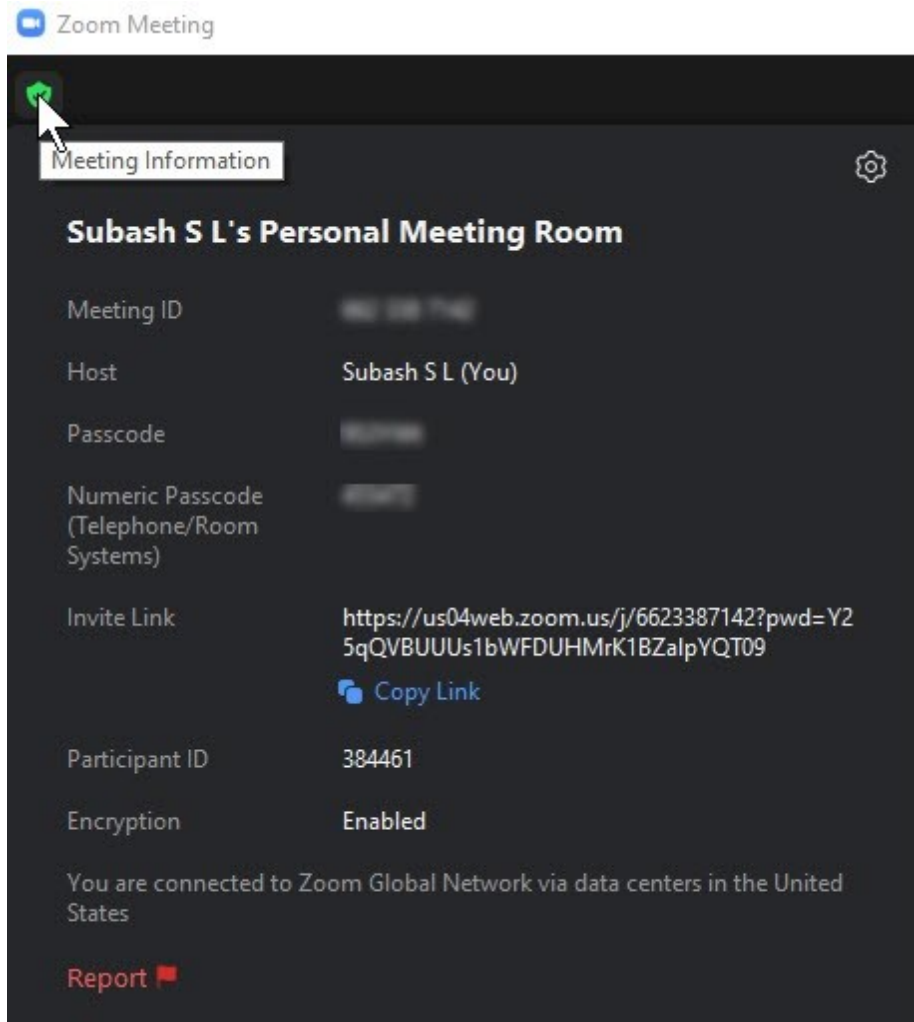

The Zoom Meeting window opens displaying your video.

For the first time the following message box is displayed.

3. Check the Automatically join audio by computer when joining a meeting check-box to prevent this message box from appearing. The message box closes.
4. Click the **Meeting Information** icon located on the top left corner of the Zoom chat window. The **Meeting ID** and **Password** are displayed.

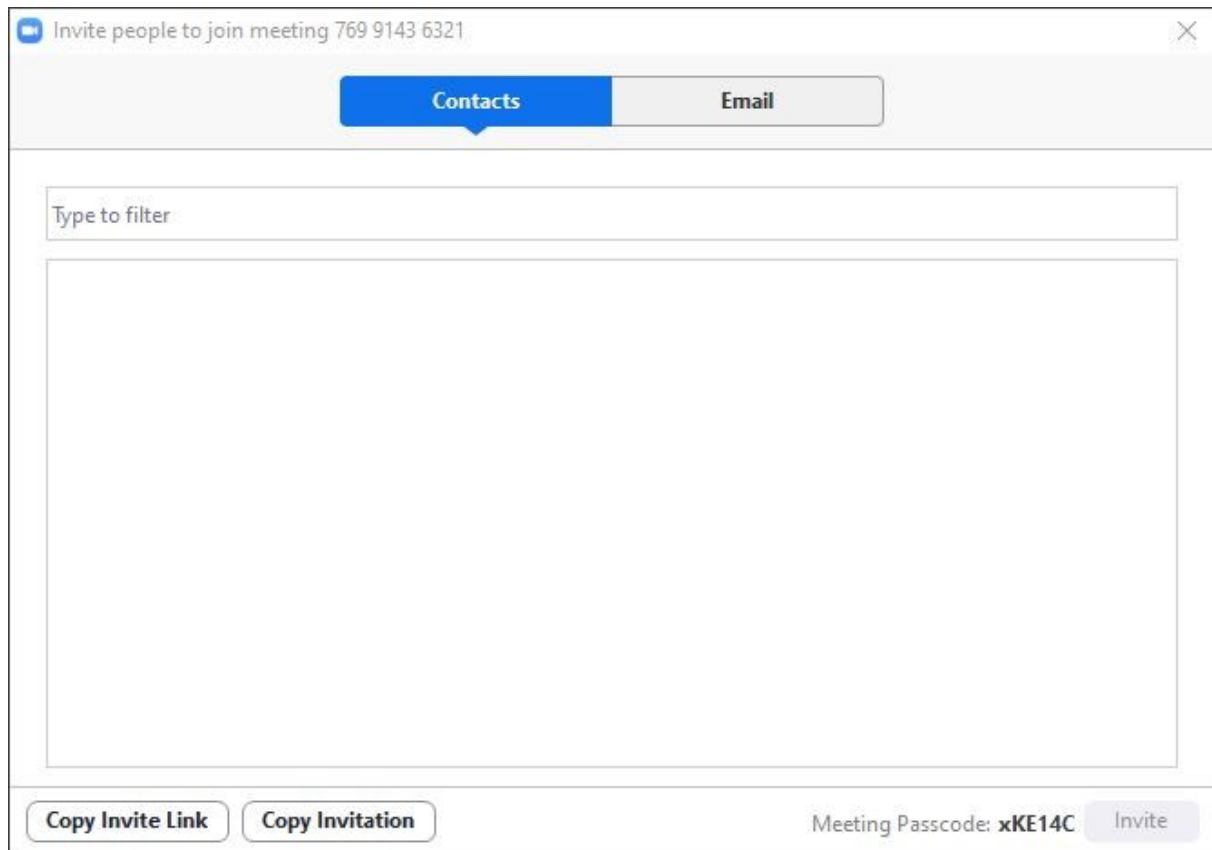

5. Hover the mouse at the bottom of the window to display additional menus and buttons.

**Note:** See bottom of this topic for additional info on the bottom menu and controls

6. Click the (^) **up arrowhead** of **Participants** and from the pop-pop menu click on **Invite**. **Hotkey (Alt+I)**

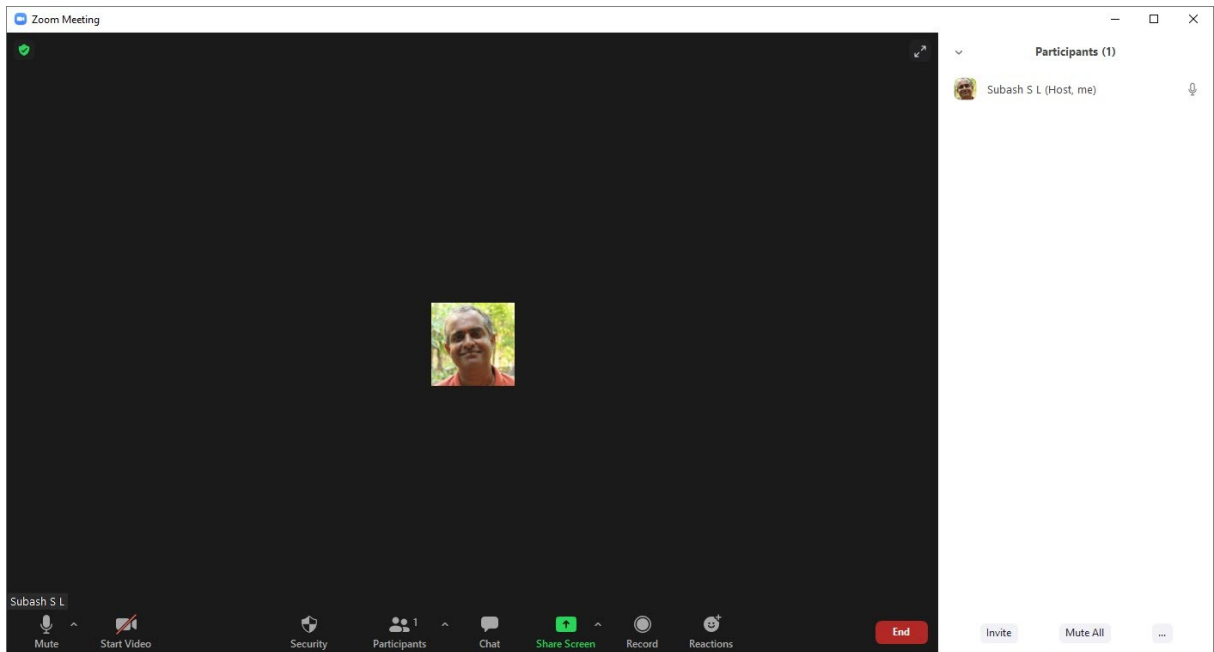

A new dialog opens where you can invite participants and share the Meeting ID and Pass

7. Select the participants to the meeting present under Contacts

**Note:** 1. Participants can be invited via Email too.

Participants who joined are added to the pane on the right of the window. To view this pane click **Participants** at the bottom of the window.

8. Admit the participant(s) by clicking **Admit** for those participant(s).

The admitted participant(s) appear in the video in the Zoom window.

**Note:** If the video or audio do not work ask the participant(s) to switch video or audio by clicking the related buttons at the bottom of the window.

**Additional Notes on the bottom menu**

1. Click **End** to end the chat sessions for all or to leave a meeting. A menu is displayed with these options.
2. Click the **Start Video** button if it displays a slash line in the button (as displayed) indicating video is turned off.
3. Click the **Mute** button to mute your audio. Click the (^) button for various other options related to your computer's microphone and audio.
4. Click the **Record** button to record the Zoom session and the video is converted into a MP4 file at the end of the zoom session. This and other functions are discussed under separate topics.

**Part**

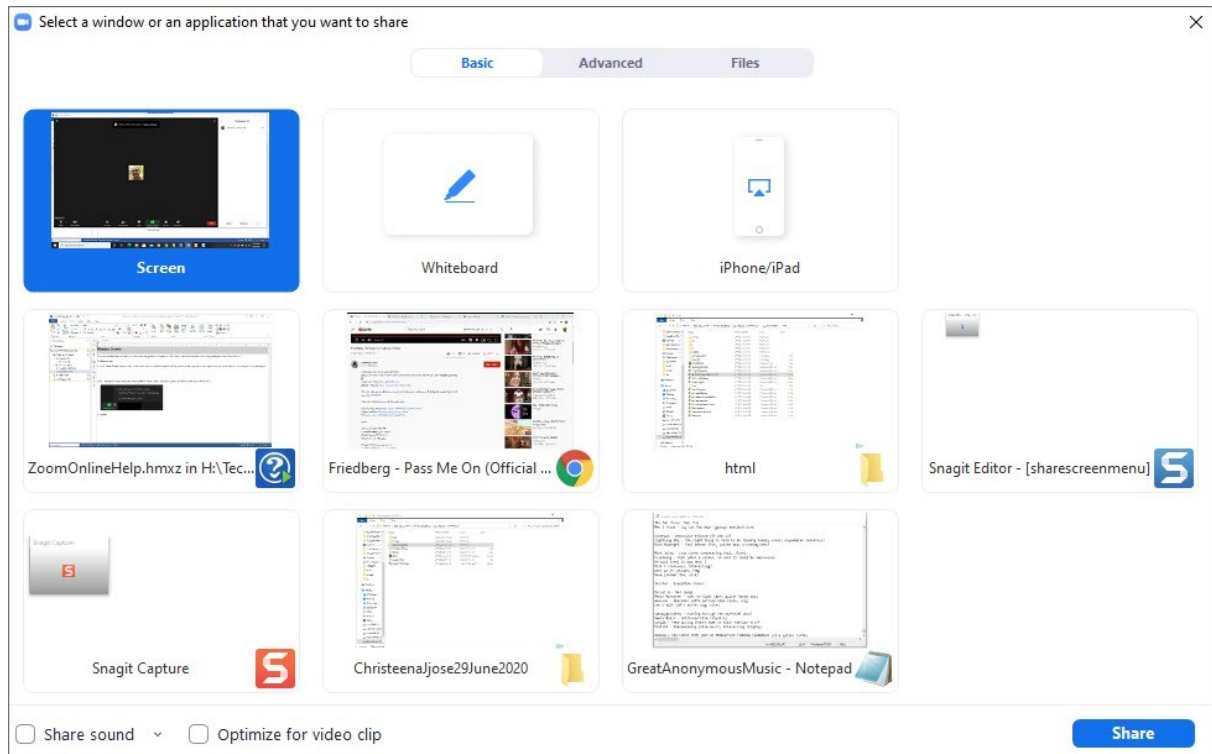

**Sharing Screen**

## 4 Sharing Screen

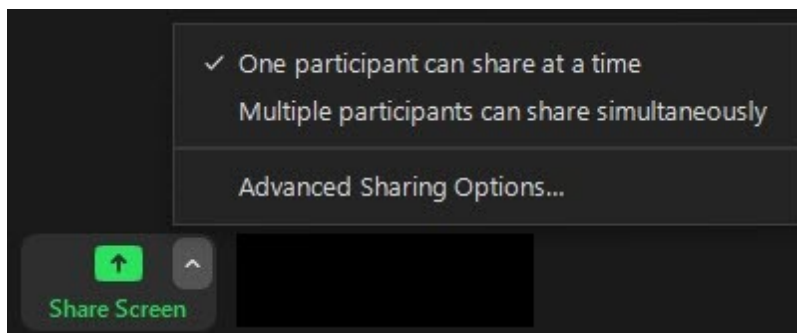

This topic explains how participants can share elements (programs, images etc.,) from their computer screen with one or more participants in the Zoom session.

### To share screen

1. Click **Share Screen** from the menu at the bottom. A new window is displayed offering various screens of programs and objects that can be shared from your computer to the participants.

**Note:** 1. By default the Basic tab is open. Click the **Advanced** and **Files** tab to share more objects and files from these tabs. 2. Additional controls and options are available for Share Screen. Click the (^) button to view more options as shown below. From here you can share your screen to multiple participants simultaneously.

2. Select what you wish to share with your participant(s).

3. Click **Share**.
4. Click the **Stop Share** button to stop sharing files and objects. The Stop Share button and controls appear on top of your screen once items are shared.

**Part**

**Giving a  
participant  
control of the  
session**

## 5 Giving a participant control of the session

This topic discusses how a host can transfer control of the Zoom session to a participant. There are two ways in which you can transfer control to a participant.

### To grant control of the session

1. Click the Ellipsis button of a participant in the Zoom session and from the menu select **Make Host**.

**Note:** You can also do this by clicking More of the participant name on the pane on the right of the video window.

A confirmation box appears asking if the control can be given to the host.

2. Click **OK**. The participant gets a message informing that the participant is the new host. In the Pane on the right the participant is updated as the new Host.

**Note:** To transfer control back to the original host the current host needs to follow the same procedure as above.

**Part**

**Chatting on  
Zoom**

## 6 Chatting on Zoom

Sometimes it becomes inevitable that messages are sent among the participants of the Zoom session. Chatting in Zoom while a video session is on is easy. This topic explains how.

### To chat during a Zoom session

1. Click the **Chat** button located at the bottom of the Zoom video screen to enable chat. A box for chatting and a drop-down list for the participants in the chat plus other options such as sending attachments etc are displayed in the pane at the bottom.

2. Choose the recipient from the To drop-down list.

**Note:** By default the message is sent to everyone in the session.

3. Type the message in the **Type message here...** box.

4. Click Enter to send the message.

**Note:** Click the file icon to send files (pictures, audio, video etc.,) to the participants too.

**Part**

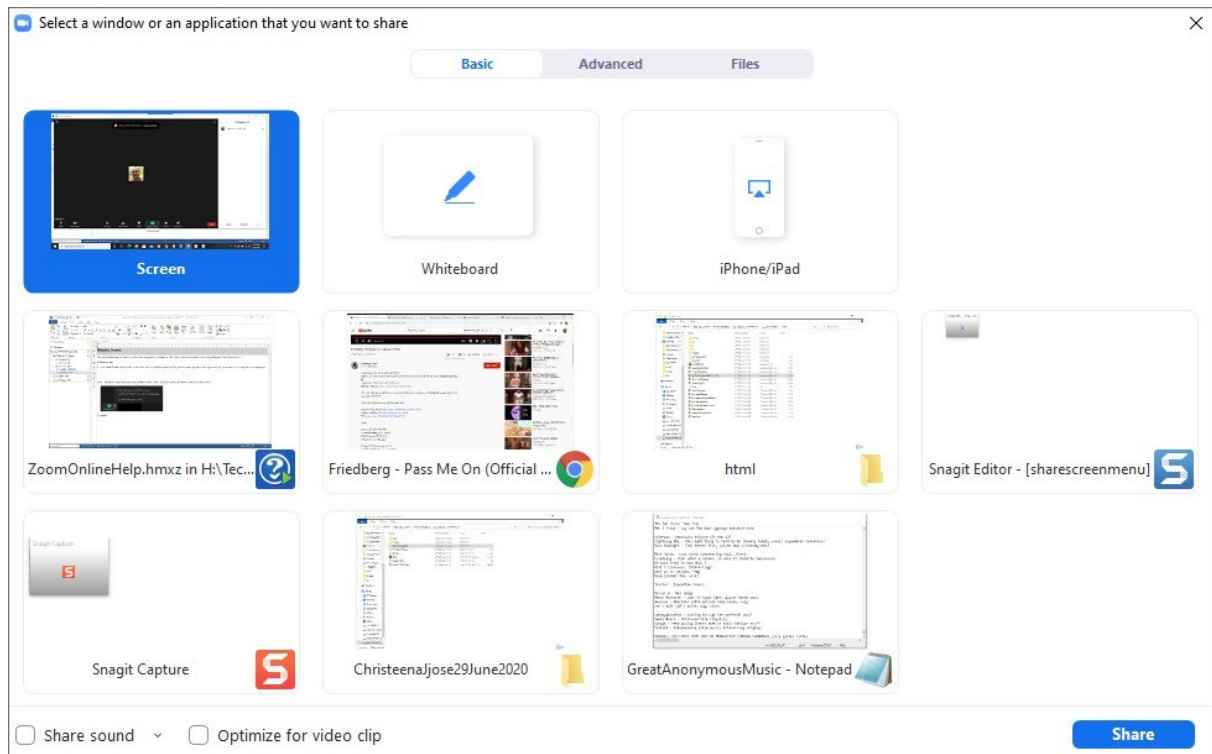

**Using the  
Whiteboard**

## 7 Using the Whiteboard

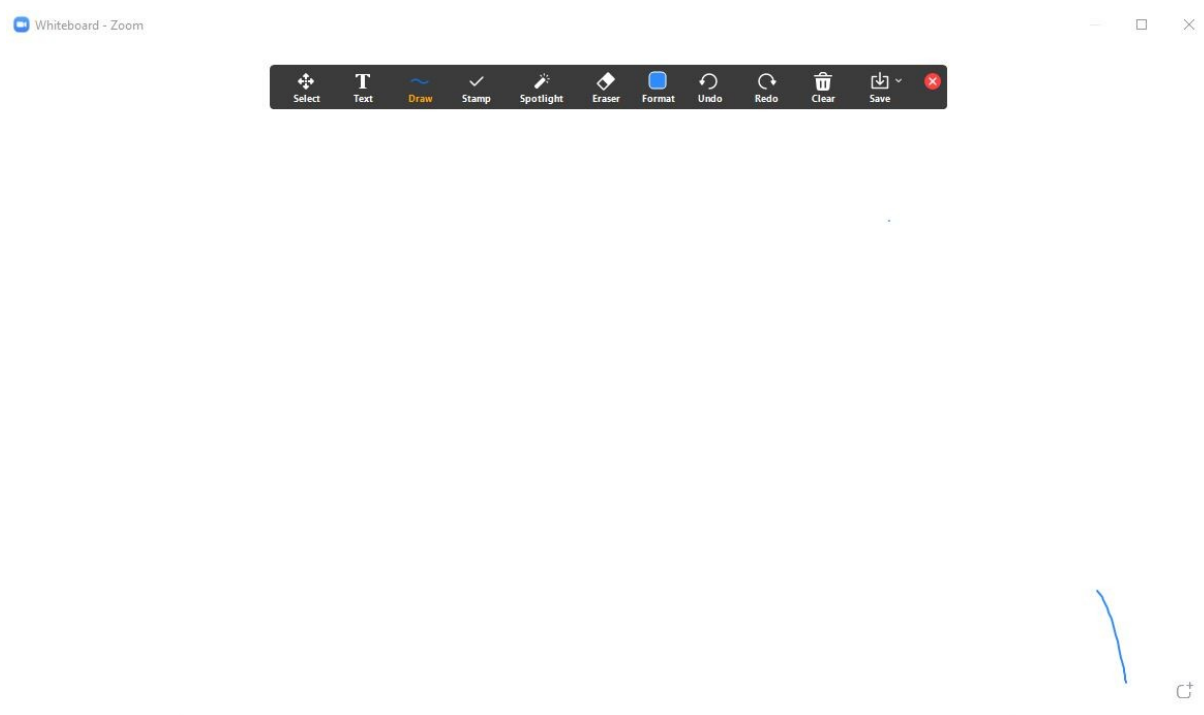

Occasionally an instructor (for example) would want to draw or write on a board to explain topics. For instance the instructor in a Zoom lesson video would want an equation to be written, a diagram to be drawn etc., These can be done using the whiteboard feature of Zoom. This topic explains how to use the same.

### To use the whiteboard

1. Click **Share Screen** from the menu at the bottom. A new window is displayed offering various screens of programs and objects that can be shared from your computer to the participants.

2. Select **Whiteboard** from the list of objects displayed. The Whiteboard opens.

3. Use the functions of the Whiteboard to draw, insert text, erase (notice icons in the menu) and several other functions for your session.
4. Click **Stop Share** to stop sharing the Whiteboard and close the board.

**Part**

**Recording a  
Zoom session**

## 8 Recording a Zoom session

Recording a Zoom session is an important activity particularly during learning sessions. This topic discusses how you can record Zoom video sessions. Videos are converted to MP4 formats after the session is concluded.

**Note:** Only the Host of a session can record the session. If a participant wishes to record a session permission for the same must be given by the Host.

### To record a Zoom session

1. Click the **Record** button to record a session. The recording begins and additional buttons appear in place of the **Record** button.

2. Click the **Stop Recording** button to stop the recording. A message is displayed indicating that the MP4 video of the recording will be created after the Zoom session is complete and Zoom automatically opens the folder where the video has been recorded.
